

10-03-2017

## **Deliverable D2.2**

# **Supporting an e-Infrastructure Event (DI4R)**

### **Deliverable D2.2**

Contractual Date:	30-09-2016
Actual Date:	10-03-2017
Grant Agreement No.:	731122
Work Package/Activity:	2/NA2
Task Item:	Task 3
Nature of Deliverable:	OTHER (Conference Event)
Dissemination Level:	PU (Public)
Lead Partner:	GEANT Limited
Document ID:	GN4-2-17-2888F0
Authors:	K. Meyer (GÉANT), A. Grant (GÉANT), G. Horvath (GÉANT)

© GEANT Limited on behalf of the GN4-2 project.

The research leading to these results has received funding from the European Union's Horizon 2020 research and innovation programme under Grant Agreement No. 731122 (GN4-2).

### **Abstract**

This document provides a brief summary of an e-Infrastructure event (DI4R) that took place in Krakow, Poland, on 28-30 September 2016.

	Glossary	22

## 1 Introduction

As part of the efforts to improve the cooperation between the e-infrastructure projects within the Horizon2020 programme, a joint e-infrastructure conference was organised to share experiences, knowledge and best practice throughout the community.

This event was intended to improve interactions and understanding between the e-infrastructure projects and also act as an outward demonstration of the cooperation and coordination between these projects in order to support European research and education.

As the GN4-2 deliverable was the DI4R event itself, this document summarises the event, the GÉANT contribution to the content delivered and the marketing and outreach support provided.

## 2 Goals/Purpose

The event was designed with research communities in mind to foster broader adoption of digital infrastructure services and promote user-driven innovation.

The event had two key goals:

1. To foster communication between the e-infrastructure projects and share knowledge, experience and best practice. To also act as a networking forum for the key members of each e-infrastructure so that they could identify opportunities for partnership and collaboration.
2. To communicate to external stakeholders the combined activities of the e-infrastructure projects and demonstrate the value of collaboration between them.

As first point of an ongoing dialogue, many representatives from the e-infrastructures supported the event, as shown in the feedback gathered below.

*"Krakow will be the home of the first joint event organised by the major European e-Infrastructure initiatives,"* says Tiziana Ferrari, Technical Director of the EGI Foundation. *"We will join efforts to support the needs of European researchers and international collaborations and EGI is proud of having been one of the main promoters of this new series of events."*

*"This event represents an important step towards greater collaboration between e-Infrastructures, which is very much required by research communities who want to be able to access network, data and computing resources in a seamless way"* adds Damien Lecarpentier, EUDAT2020 Project Director.

*"This is a golden opportunity for researchers, and those who support research, to engage in a dialogue with e-Infrastructure providers in one setting. The goal is for the e-Infrastructure providers to better understand the how researchers work and the services they need. In addition, researchers should come away from the event with a clearer understanding of the e-Infrastructure landscape and their service portfolio. We will each learn from one another, and work towards the common goal of advancing science and research", says Steve Cotter, CEO GÉANT.*

*"Open research infrastructures are stepping stones for new products and services," says Tony Ross-Hellauer, OpenAIRE Scientific Manager. "We encourage all researchers to join our event to discuss open research infrastructures that have a long-term impact on the European scientific community."*

Peter Wittenburg, Executive Director of RDA Europe adds that *"digital infrastructures providing services from basic network, CPU and storage up to those populating the dynamic knowledge integration will determine our ability to extract knowledge from the data floods."*

### 3 Logistics and Setup

The DI4R 2016 conference was co-organised by EGI, EUDAT, GÉANT, OpenAIRE and RDA Europe, and hosted by ACC Cyfronet AGH, Krakow's academic computing centre.

The event was held from 28 to 30 September 2016, comprising 40 seminar sessions, together with 3 plenary sessions. The full programme is provided in Appendix A.

A consistent branding schema was developed for Di4R using the concept of linking the key e-infrastructures

Figure 3.1: Example of e-infrastructure branding concept

A separate website was developed for Di4R, which will also be used to support future events [[WEBSITE](#)]. This site currently contains recordings of the plenary sessions and downloads of all presentations and papers for the event.

The event's primary focus was to foster co-operation between e-infrastructures, and so marketing at the event was focused on a single, joint booth area, which was jointly branded by all organisers.

Figure 3.2: Joint booth branding and graphics.

Figure 3.3: Joint booth area

Corporate sponsorship was provided by Intel and Hewlett Packard to offset the costs of the event and to demonstrate the role of commercial providers into the delivery of e-infrastructures.

A number of associated events and activities were also co-located at the venue [[EVENTS](#)].

These included:

- Third WISE Workshop - Wise Information Security for Collaborating e-Infrastructures [[WISE](#)].
- Workshop: Design your e-Infrastructure.
- FitSM Foundation Training [[FitSM](#)].

## 4 e-Infra Liaison

As part of this event, GÉANT and the other key e-infrastructure projects held a joint plenary session on 29 September 2017, with the theme, “What do researchers and research infrastructures need from e-infrastructures?” The session addressed how cooperation and better coordination of service delivery across research infrastructures can be achieved, addressing points such as:

- Current engagement between research infrastructures.
- How service delivery can be better coordinated.
- Ways to increase the participation of research infrastructure representatives in e-infrastructures.

The panel discussion was built upon a round of flash presentations from representatives of key research infrastructures.

Chaired by Franciska de Jong from CLARIN – European Research Infrastructure for Language Resources and Technology, the session included representatives from:

- GÉANT
- EGI
- EUDAT
- OpenAIRE
- RDA

The session was recorded and is now available on the digital infrastructures website [[WEBSITE](#)].

In addition to this plenary, GÉANT hosted six of the thematic conference sessions, and participated in a further five sessions of the event. Chaired sessions included;

- Building interoperable AAI for researchers.
- Building user-defined and user-controlled virtual networks for WAN workflows.
- SME dynamics workshop – towards an integrated approach.
- Data infrastructures and their innovation potential - lightning talks.
- Harnessing the power of end-to-end networks.
- Virtual research environments for the Open Science Cloud.

## 5 Marketing and Communications

All participating organisations undertook a full range of internal and external marketing and communications activities for the event with GÉANT using website, email and social media activities to engage with a range of stakeholders.

In addition, Di4R operated its own twitter account to promote the event prior to opening, and to disseminate information during the event [[TWITTER](#)].

On GÉANT's Twitter feed, @GEANTnews also promoted the event heavily both prior to and during the event.

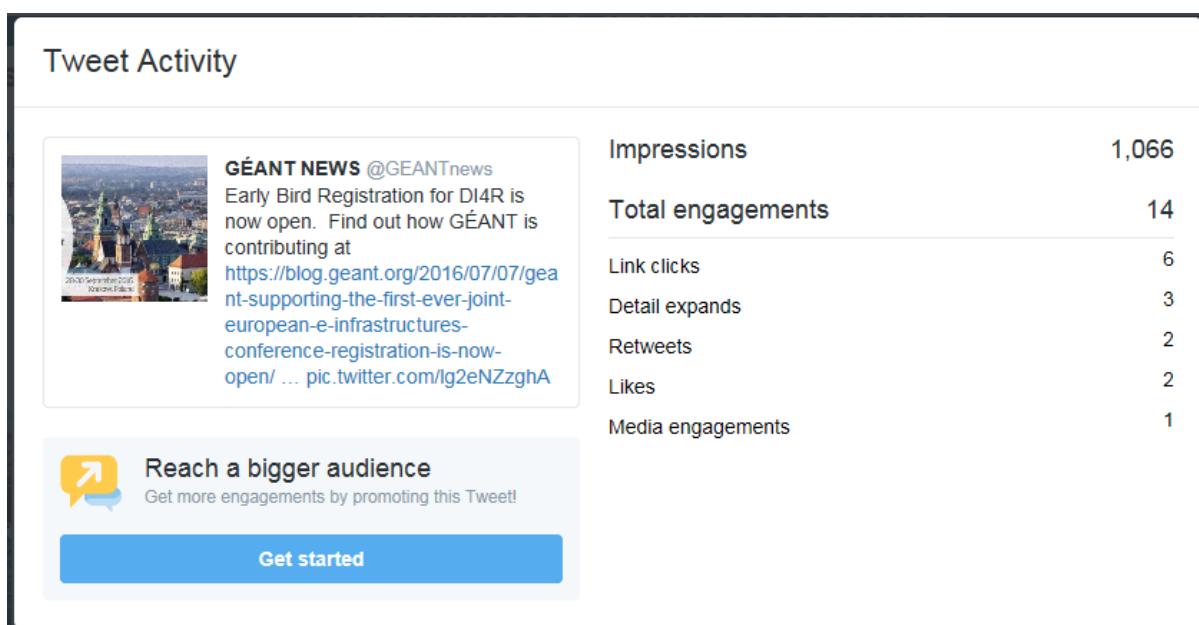

Figure 5.1: Sample social media promotion of Di4R

The event was also promoted within CONNECT magazine, with articles and interviews from e-infrastructure projects [[CONNECT](#)].

Figure 5.2: CONNECT cover featuring DI4R

This combination of both online and print-based marketing and support was designed to increase awareness of the event and of the e-infrastructure projects.

## 6 Results and Feedback

Prior to the event, 369 attendees registered to attend, combined with substantial numbers of on-the-door attendees pushed the total numbers to an estimated 500.

Appendix B provides a list of pre-booked attendee organisations.

GÉANT project and organisation staff chaired or co-chaired 7 of the 40 sessions and presented at 11 of the sessions. Full presentations are available on the website [[PROGRAMME](#)].

## 7 Conclusions and Next Steps

The feedback for this event from the organisers, programme committee and attendees was very positive, and initial planning has commenced for a second conference in September 2017. The event formed a catalyst for further and deeper collaboration between the e-infrastructure projects. As a result, joint marketing of e-infrastructure activities will continue. This includes:

- Regular e-infrastructure communications within CONNECT magazine.
- Support of e-infrastructure activities through the GÉANT social media channels [[NEWS](#)], [[FACEBOOK](#)].
- Promotion of e-infrastructure activities in internal news channels.
- Planning for a joint e-infrastructure booth at TNC17 [[TNC17](#)].
- e-infrastructure presence alongside GÉANT at SC17 [[SC17](#)].

	 <a href="#">Enabling Dynamic Services</a>	 <a href="#">GridPP experiences of monitoring the WLCG network infrastructure with perfSONAR</a>	Interactive Panel (BlueBRIDGE, MuG, PhenoMeNal, READ, West-Life)		
	Panel discussion				
13:00 - 14:00	Lunch & Exhibition Venue 2: Rooms: 1.14 + 1.20 + 1.19				
14:00 - 15:30	<b>Closing Plenary</b>  Keynote: <a href="#">Laurie Goodman, GigaScience</a> : "Data Citation: Credit Where Credit is Due"				
Room:	Venue 2: Room 1.38				
Chair:	Mariusz Sterzel, <a href="#">Adam Farquar</a>				

## Appendix B

Organisation Name	Number of Attendees
AARNet	2
Academia Sinica Grid Computing Centre (ASGC)	2
ACC Cyfronet AGH	1
ACOnet	1
AdviceGEO	1
AEC-LHEP University Bern	2
AGH University of Science and Technology	7
Aristotle University of Thessaloniki	1
ARN - Algerian Research Network	1
ARNES	2
Athena Research and Innovation Center	2
Barcelona Supercomputing Center	1
BME IK	1
Bogazici University	1
British Library	1
California Digital Library	1
CANARIE	2
Centre de Calcul de l'IN2P3	2
CERFACS	1
CERIST	3
CERN	5
CESGA	1
CESNET z.s.p.o.	8
CESSDA AS	1
CINECA	2
CIRMMT and UNIVERSITY OF FLORENCE	1
CLARIN, University of Twente	2
CNR - ISTI	3
CNRS - IPHC	1
CNRS UMS 3601 IFB-core	1
Compute Canada	3
Copenhagen Business School	1
Council for Scientific and Industrial Research	1
CPPM-IN2P3-CNRS	1
CREATIS	1

<b>Organisation Name</b>	<b>Number of Attendees</b>
CSC - IT Centre for Science	7
CSIR	1
Culham Centre for Fusion Energy	1
Cyfronet	34
DAASI International	1
Danish e-Infrastructure Coorporation (DeIC)	5
DANS	1
Dat Data / Miami Foundation	1
Datacite	1
DESY	1
Deutsches Forschungsnetz - DFN	1
Deutsches Klimarechenzentrum (DKRZ)	2
DFN-Verein	1
Digital Curation Centre	3
EBI	1
EGI Foundation/EGI.eu	17
EISCAT Scientific Association	2
EMBL-EBI	1
Engineering Ingegneria Informatica S.p.A.	4
EPCC, The University of Edinburgh	1
EPFL	1
EUDAT	1
European Commission	2
European Future Innovation System (EFIS) Centre	1
FOM-Nikhef	1
Forschungszentrum Jülich GmbH	2
France Grilles Scientific Interest Group (INSERM,CNRS)	11
Fraunhofer SCAI	1
GÉANT	14
GÉANT 4 / SWITCH	1
Genias Benelux B.V.	1
Georg-August-University Göttingen	1
German National Library of Economics	1
GESIS - Leibniz Institute for the Social Sciences	2
GigaScience	1
GRNET S.A.	5
GWDG	1
Haute Ecole de Gestion Geneva	1

<b>Organisation Name</b>	<b>Number of Attendees</b>
HEAnet	1
Heidelberg University	1
Heinrich-Heine University Duesseldorf	1
Helsinki University Library	1
Hodes Management & Consultancy	1
IBCh PAS, PSNC	1
ICHB PAN - PCSS	1
ICHB PAS - PSNC	1
ICM	2
IFCA-CSIC	1
Imperial College London / Jisc	1
INAF - OATs	2
Indiana University	1
INFN	6
INGV	2
INIST-CNRS	1
Institute For Biocomputation and Physics of Complex Systems (BIFI-UNIZAR)	1
Institute for Research in Biomedicine (IRB Barcelona)	1
Institute of Accelerating Systems and Applications (IASA)	1
Institute of Cosmos Sciences, University of Barcelona	1
Institute of Informatics SAS	1
Instruct	2
IPGP / CNRS	1
IPHC / CNRS	1
Istituto di Scienza e Tecnologie dell'Informazione 'A. Faedo' - National Research Council of Italy	1
Jisc Services Limited	4
Jozef Stefan Institute	1
Karlsruhe Institute of Technology	2
KI AGH	1
KISTI	2
KIT	1
KNMI	2
KTH	1
Leibniz Supercomputing Centre	1
Leibniz Universität Hannover	1
Leiden University	1

Organisation Name	Number of Attendees
LIBIS @KU Leuven	1
LIP	2
LITNET / GEANT	1
Lund University & ICOS Carbon Portal	1
Masaryk University, Institute of Computer Science	2
Max-Planck Computing & Data Facility	1
MPCDF	1
MTA SZTAKI	1
National Institute of Informatics	2
National Research Council, Institute of Biomembrane and Bioenergetics (IBBE-CNR)	1
Netherlands eScience Center	2
Netherlands Institute of Ecology	1
Nikhef	3
NORDUnet	1
Oxford University	1
Particle Physics Department STFC, Rutherford Appleton Laboratory	1
PSNC	1
RENATER	1
Research Data Services	1
RIPE NCC	1
RRZE / University of Erlangen-Nuremberg	1
Rudjer Boskovic Institute	2
SCC	1
School of Computer Science and Informatics, CU	1
Science and Technology Facilities Council	1
Science for Life Laboratory	1
STFC	7
Stichting eIFL.net	1
SURF	1
SURFnet	4
SURFsara	10
SWITCH	3
Tampere University of Technology, Finland	1
Technical University of Denmark	1
Technische Informationsbibliothek (TIB) German National Library of Science and Technology	1
Terradure	1

<b>Organisation Name</b>	<b>Number of Attendees</b>
The British Library	1
The Centre for Computational Science - UCL	1
The Hague University of Applied Sciences	1
The National Library of Finland	1
The Netherlands Organisation for Scientific Research (NWO)	1
The University of Sheffield	1
Trust-IT Services LTD	3
Uninett AS	1
Universitat Autònoma de Barcelona	1
Universitat Politècnica de València	1
Université Libre de Bruxelles	1
Universiti Putra Malaysia	1
University College London	1
University Computing Centre (SRCE)	3
University of Amsterdam	3
University of Bonn-Germany	1
University of Glasgow	1
University of Minho	1
University of Oslo, Department of Geosciences	1
University of Southampton	1
University of Twente	3
University of Vienna	1
Utrecht University	4
Vlaams Instituut voor de Zee	1
Vrije Universiteit Brussel	1
Washington University in St. Louis	1
Zurich University of Applied Sciences	1
No organisation declared	16
<b>Total registered delegates</b>	<b>369</b>
